

Best Whitetail Photo Contest

“Celebrate the Harvest”

We would rather support and celebrate the notion of sportsmen and women enjoying the experience and creating memories rather than just focusing on antler size. The rating system will be on photo quality, including composition and clarity. The contest is for either archery or firearms. There will be door prizes given throughout the contest for all who submit a photo. We will take the Top 10 Quality Photo entries, and winners will be chosen by the public in an online voting format. We will also have a youth division under age 17, and will take the Top 5 Quality Photo entries with the winner being chosen by the public online voting format. Top Quality Photo entries will be determined by a panel of judges representing various interests that will be selected in the weeks ahead. Winners will be announced in January when Deer Season concludes. Make sure to take that camera with you during hunting season. Every buck has a chance to win!
